SUMMARY

Aspiring Data Analyst with skills in Excel, SQL, Python, Power BI, and Tableau. Interested in working with data, finding useful insights, and creating clear visualizations. Have a good understanding of programming, databases, and data analysis. Enjoy solving real-world problems and learning new ways to work with data.

EDUCATION

Mohan Babu University - Tirupati, AP

B.Tech in Computer Science and Engineering

CGPA : 8.67

2023 - 2027

GSH Junior College - Rajahmundry, AP

Intermediate MPC — BIEAP

Percentage : 89.01

2021 - 2023

Novy High School - Tuggali, AP

Matriculation — State Board

Percentage : 99.83

2020 - 2021

EXPERIENCE

Data Analyst & Business Intelligence Intern - Cogevance Technologies

July 1, 2025 – Oct 1, 2025

- Worked on data analysis tasks involving data cleaning, transformation, and preparation for reporting.
- Used Excel, SQL, and Python to analyze datasets and identify useful trends and patterns.
- Created visual reports and dashboards using Power BI to present business insights clearly.
- Performed exploratory analysis and prepared summary reports to support data-driven decision making.
- Worked with structured datasets and presented analytical findings in a simple and understandable format.

PROJECTS

E-Commerce Sales & Customer Analytics | *Excel, SQL, Python, Power BI*

- Analyzed 1,500+ e-commerce orders to understand sales performance across products, categories, regions, and customer segments.
- Cleaned and analyzed sales data using Excel and SQL to calculate key business metrics.
- Used Python with Pandas and Matplotlib to analyze sales trends and create visualizations for top products and categories.
- Built a Power BI dashboard to present sales trends, product performance, regional sales, and customer insights.

Employee Attrition Analysis | *Excel, SQL, Python, Power BI*

- Analyzed 300 employee records to understand employee attrition patterns.
- Compared attrition across departments, overtime, job satisfaction, salary, and age groups.
- Used Excel, SQL, and Python for data cleaning, analysis, and visualization.
- Created a Power BI dashboard to present key attrition findings and employee trends.

CERTIFICATIONS

- **Google Data Analytics Professional Certificate** – Google
- **Microsoft Power BI Data Analyst** – Microsoft
- **Python for Data Analysis** – Cisco
- **SQL for Data Analytics** – Udemy

TECHNICAL SKILLS

Programming Languages: Python, Java

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn

Data Analysis: Excel, SQL

Advanced Data Visualization Tools: Power BI, Tableau

ACHIEVEMENTS

- Received a Certificate of Appreciation for being recognized as an Outstanding Student for securing the highest marks in the Intermediate Public Examinations.
